Creating a Webpage About Your Favorite Movie: Links, Tables, and Multimedia		Laboratory Activity 4	Score:

Objective:

Students will create a webpage about their favorite movie using HTML elements such as headings, media, links, and paragraphs. This activity aims to enhance students' understanding of basic HTML structure and elements, and to develop their skills in web development.

Instructions:

1. **Choose Your Favorite Movie:** Select a movie that you enjoy and would like to create a webpage about.
2. **Set Up Your HTML File:** Create a new HTML file named favorite_movie.html.
3. **Create a New HTML Document**
 - Create a new HTML document and save it as Lastname_Schedule.html.
 - Ensure the document has a proper DOCTYPE declaration and includes <html>, <head>, and <body> tags.
4. **Create Headings:**
 - Use <h1>, <h2>, and <h3> tags to add headings for the title of the movie, a brief introduction, and sections like "Plot", "Cast", and "Reviews".
5. **Add Paragraphs:**
 - Use <p> tags to write detailed descriptions under each heading. Include information about the plot, main characters, and your personal review of the movie.
6. **Insert Media:**
 - Add an image or a video related to the movie using the or <video> tags.
 - Ensure the media is properly sourced and credited. html
7. **Include Links:**
 - Add at least two links using the <a> tag.
 - One link should direct to the official movie website, and another to a related article or review. html Official Movie Website
8. **Save and Preview:** Save your HTML file and open it in a web browser to ensure everything displays correctly.
9. **Submit Your Work:** Submit your HTML file to the instructor for grading.

Grading Rubric:

Criteria	Excellent (5)	Good (4)	Satisfactory (3)	Needs Improvement (2)	Unsatisfactory (1)
